Group No	CS 30
Project Title	'Beauty Craft' - Integrated Salon Management System
Supervisor's Name	Mr. Tharindu Wijethilake
Co-Supervisor's Name	Miss. Sithara Fernando

Group Meeting Number	11	**Date**	18.10.2021

Summary of work carried out during last two weeks

- Worked on the presentation slides and had a few rehearsal rounds for the interim presentation.
- Finalized backend implementations related to login and registration modules of the system.
- Finalized all the UI implementations of the system and CRUD operations assigned to each team member.
- Added session validation to some sections of the project.

Individual Contribution for last two weeks

[1]. N.D.Dissanayake 19000413	▪ Implemented backend for new reservation adding operation and retrieval of data related to reservations. ▪ Completed all UIs according to the workload distribution. ▪ Checked and finalized backend functionalities to demonstrate in the interim presentation. ▪ Added fetch API requests for reservation placing to dynamically update the available service providers list. ▪ Corrected redirection issues based on the logged-in user type.
[2]. R.M.N.T.S.Rajapaksha 19001274	▪ Finalized all UI implementations related to assigning actors (Manager). ▪ Worked on CREATE and VIEW operations related to the Service management process (Add service & View service). ▪ Finalized slides of the Interim presentation and did rehearsals with team members.
[3]. K.P.R.L.Madhubhashana 19000812	▪ Finalized the UI implementation related to owner actor. ▪ Implement a backend operation to create and view operation in the staff management process. (Add staff member and view staff member) ▪ finalized the presentation slides of interim presentation with the team. ▪ Learned more about back-end development with MVC-based PHP.
[4]. H.D.R.M.Munasinghe 19001029	▪ Finalized UI implementations related to assigned actors. ▪ Implemented create and view operations of the leave requesting process with basic validations. ▪ Finalized the content of the interim presentation with team members. ▪ Practiced how to deliver the assigned demonstration part with team members. ▪ Learned more things about backend development technologies based on MVC, PHP, and MySQL.

Meeting outcomes

- Rehearsed interim presentation and got feedback from supervisor and co-supervisor.
- Discussed the content of the interim slides and the changes required to be made.
- Demonstrated all finalized User Interfaces.
- Discussed some implementation problems in the slot handling part of the Service management process.
- Got some suggestions for the report generation module of the system.

Responsibilities Accepted by group members for the next two weeks	
[1]. N.D.Dissanayake 19000413	- Restructuring the controllers to optimize the code reuse. - Completing session validation related to signing from all user accounts. - Completing leftover tasks related to the SMS API. - Start working on the validation of the reservation placing logic. - Adding pin time-out for the OTP verification in password reset and customer registration.
[2]. R.M.N.T.S.Rajapaksha 19001274	- Make changes to the UIs and their backend by considering feedback from the panel of the interim presentation. - Create a progress plan with team members by considering future tasks. - Work on remaining CRUD operations. - Learn more about JS, PHP, and MySQL.
[3]. K.P.R.L.Madhubhashana 19000812	- Start working on close salon backend development. - Create a list of works that remaining to do. - Consider the feedback provided during the intermission and start making changes accordingly. - Learn more about backend development technologies.
[4]. H.D.R.M.Munasinghe 19001029	- Create checklists for assigned operations left to do. - Make minor changes to the UI that detected the changes. - Start to implement selected CRUD operations. - Gain more knowledge of CRUD operations.
